

# PRO ELECTRIC SERIES

## CARVED TOP AND BACK

PE-1200 This beautiful contoured body is a lamination of mahogany layered between a solid maple back and top. This unique construction produces a warm tone with great sustain.

Carved Top (PE-1200)

Carved Back (PE-1200)

PE-1000 This instrument features a laminated mahogany body between a carved sen top and solid maple back. Like its counterpart this guitar is as excellent in construction with great looks and an awesome sound.

Heel-Less Cutaway (PE-1000)

## HEEL-LESS CUTAWAY

(U.S. Patent # 258290)

The Aria Heel-Less Cutaway is designed especially for today's guitarist. Even the highest frets are easy to reach, and the overall performance of the guitar is greatly improved.

## PICKUPS

The PE-1200 comes fitted with OH-6 Alnico magnetic humbucking pickups. With low noise and a wider frequency response, this pickup provides very rich and powerful sounds. The PE-1000 is equipped with two excellent AH-2 pickups. This active humbucker provides a wide range of sounds from clean tone to a hard rock crunch.

OH-6 P.U. (PE-1200)

AH-2 P.U. (PE-1000)

## CONTROLS

The PE-1200 and PE-1000 guitars have a three way pickup selector switch enabling the guitarist to switch from hot leads to smooth rhythms or a combination of both. The selector switch is in a readily accessible position to facilitate quick changes.

Control (PE-1200)

# SUPER BASS SERIES

## PICKUPS

The SB-LTD comes with the ALEM-BIC 2AXY/AE-1 pickup, the choice of many fine professional musicians. The SB-1200 is fitted with the AP-3 and the AJ-3 active pickups. The ELT has two MB-V dual coil pickups. These pickups provide a low noise, high output state of the art sound.

ALEM-BIC 2AXY/AE-1 P.U. (SB-LTD)

MB-V P.U. (SB-LTD)

AP-3 A.J.3 P.U. (SB-1200)

## CONTROLS

The SB-LTD comes equipped with an ALEM-BIC filter circuit to complement its ALEM-BIC pickups. The Aria original active circuit is standard on the new SB-1200. With deep bass and clear high, this circuit offers much wider coloration than that of more conventional bass circuits. The passive circuit used in the SB-ELT is noise-free and creates a beautifully warm, clear sound.

Active Control (SB-1200)

## SUPER BALANCED BODY

The SB-LTD and SB-1200 are made from one piece of high-grade stained sen. The beautiful and sleek tapered construction -48mm at the bottom edge-give these instruments a superbly balanced feel with great sustain. One piece of sen is also used for the body of the SB-ELT. It's 43mm wide construction combines balance and beauty with superior performance.
